**Mentor me Senpai**  
**By**  
**Ritik Maheshwari (2021510031)**

Under the guidance of  
**Internal Supervisor**

**Prof.Nikitha Mangaonkar**

Department of Master Of Computer Application  
Sardar Patel Institute of Technology  
Autonomous Institute Affiliated to Mumbai University  
2022-23

## **CERTIFICATE OF APPROVAL**

This is to certify that the following students

**Ritik Maheshwari (2021510031)**

Have satisfactorily carried out work on the project  
entitled

**“Mentor Me Senpai”**

- Towards the fulfilment of project, as laid down

by  
Sardar Patel Institute of Technology  
during year  
2022-23.

Project Guide:  
Nikhita Mangaonkar

## **PROJECT APPROVAL CERTIFICATE**

This is to certify that the following students

**Ritik Maheshwari (2021510031)**

Have successfully completed the Project report on

**“Ritik Maheshwari”,**

which is found to be satisfactory and is approved

at

## Abstract

Mentor me Senpai is a interview experience website where the seniors can leave their interview experiences as well as tips and tricks to study and prepare for the exam which can help in juniors focusing on the company prepare well.

The juniors can view the interview experiences and also can connect with the seniors if they have more doubt in preparation. Also there is a news section which will keep them informed with the upcoming off-campus hiring drive of various companies.

The app will help students know more about the interview process and help them prepare and have more idea about what type of questions are generally asked other types of questions.

## Objectives

The web based Application "mentor me senpai" is used

- To provide students interview experiences
- To provide tips and tricks for the placement preparation.
- To provide a insight of various prerequisites and help target companies.
- To provide a platform to keep updated with various off campus placement drives

## 1 Introduction

### 1.1 Problem Definition

To create a platform where seniors can give their interview experience which will help juniors to help them during their placement<sup>‘</sup> preparations

### 1.2 Objectives and Scope

#### 1.2.1 Objectives

The web based application ”Mentor me senpai” is

- To provide students interview experiences which will help them in preparation
- To provide a insight of various prerequisites and help target companies.
- To provide a platform to keep updated with various off campus placement drives.
- To provide a better understanding of roles and job profiles.

#### 1.2.2 Scope

Seniors can provide their detail interview experiences and details of the process and their method of preparation and links to study material and other references.

Students can register and see the interview experiences of seniors and can be well versed with the topics asked and can easily target their companies.

This system is created to reduce the pressure amongst student and reduce the wastage of time in researching for various companies and get all the required information regarding the placement process handy which will make the process effortless.

### 1.3 Existing System

Currently no such kind of website exist in this space there is a gdrive with all the interview experience but it is difficult to find and study from it. .

Some of the disadvantages of existing system are as follows :

- Time consuming, Manual work  
Every time student has to go through a manual search and have to gather all the resources to study for interviews.
- Redundancy  
Many times the same details are repeated in the folder which causes issues.
- Loss of information  
Many a times students miss out or put the data in wrong folder which is then forgotten and never seen by students.

### 1.4 Proposed System

The User is the Student seeking a new placement or Internship who will register (only using SPIT email address) and access the system features. This System will consists interview experiences provided by the seniors for different companies which can be accessed by the user to prepare well and be well versed with the type of questions asked in the interviews.

The seniors will leave their interview experience just after a week or two after their interviews as the knowledge remains fresh. Generally companies follow the same pattern and thus this will help students targeting the company to be prepared upcoming challenges.

You can also reset your password if forgotten. Upon entering your UID, your Year and Branch will automatically get stored.

Some of the advantages of my system are as follows :

- User Friendly  
It provides attractive interface to the user for navigation through various experiences  
Experiences are organised based on companies  
Single page interface wont let you get lost in the page
- Updates for upcoming Off campus Companies  
With the integration of a web scrapper it will also provide the latest updates of upcoming or current placement drives of other of campus companies.

## 1.5 System Requirements

- Hardware Requirements on Server Side

Table 1.5.1: Hardware Requirements on Server Side

Processor	Dual Core Processor or Above
RAM	Minimum 4 GB RAM
Storage	Minimum 10 GB Hard Disk Space for smooth run

- Hardware Requirements on Client Side

Table 1.5.2: Hardware Requirements on Client Side

Device	Android Device with Touch Screen minimum 5" inch Display
Processor	Dual Core Processor or Above
RAM	Minimum 2 GB RAM
Storage	Minimum 250 MB Storage Space

- Software Requirements on Server Side

Table 1.5.3: Software Requirements on Server Side

Operating System	OS Independent
Database	MongoDB

- Software Requirements on Client Side

Table 1.5.3: Software Requirements on Client Side

Operating System	Android/IOS Smartphone
Server	Not Required

## 2 Software Requirement Specification (SRS) and Design

### 2.1 Purpose

The purpose of our project is to develop a platform where seniors can give their interview experience which will help juniors to prepare during their placement process.

This can save lots of efforts in searching the right material to study. Also is very helpful in last minute revisions and can provide a good insight over types of questions asked in interviews

### 2.2 Definition

To build a platform where students can read interview experience of various companies.

### 2.3 Overall Description

#### 2.3.1 Product Functions

The product function includes:

1. Authentication: Users are required to Sign-up and Log-in (only using SPIT id). Users will get a verification email for successful registration.
2. Experience: Seniors have to fill a form in detail with all the required fields.
3. privacy: Can choose to hide his name while posting experience.
4. View Experience: students can view the experience of various students.
5. Updates: Latest updates of upcoming or current off campus placement drive.

### **2.3.2 User Characteristics**

There are two types of users:

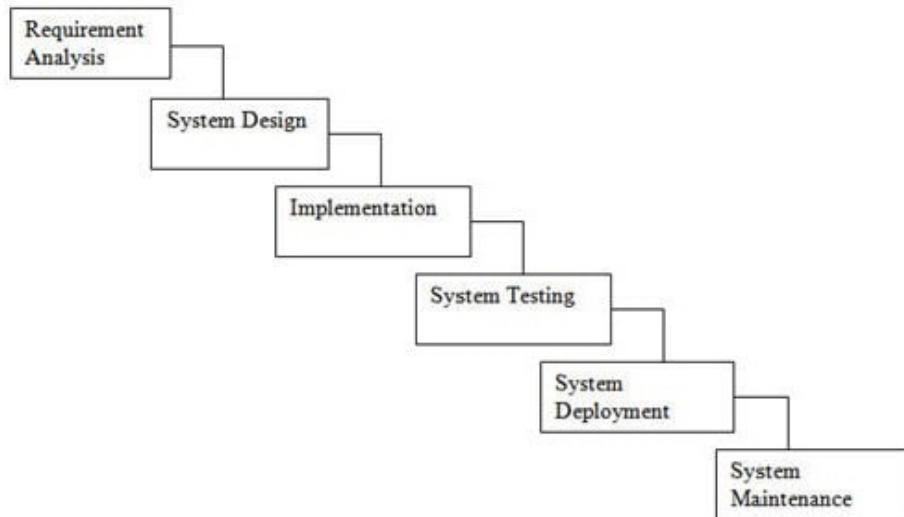

- Seniors: Seniors has the ability to post and edit the interview experience
- Juniors: He/She can only view the interview experiences and can try to contact with seniors for more help .

### 3 Project Analysis and Design

#### 3.1 Methodologies Adapted

In Waterfall model, very less customer interaction is involved during the development of the product. Once the product is ready then only it can be demonstrated to the end users.

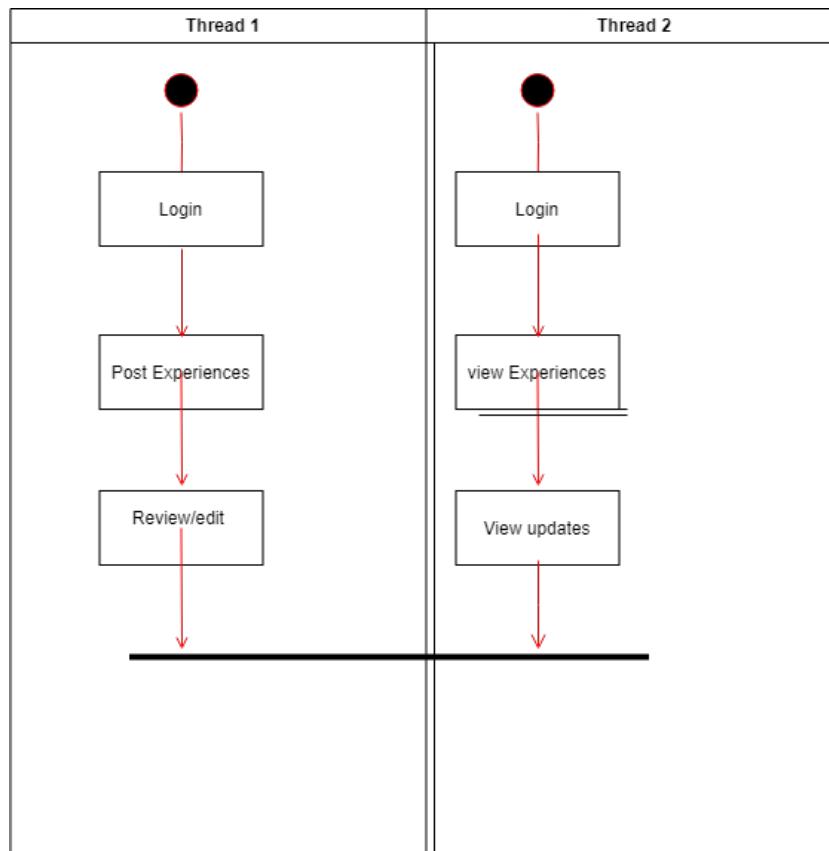

Once the product is developed and if any failure occurs then the cost of such issues is very high, because we need to update everything from document till the logic.

3.1.1: Diagrammatic Representation of Waterfall Model

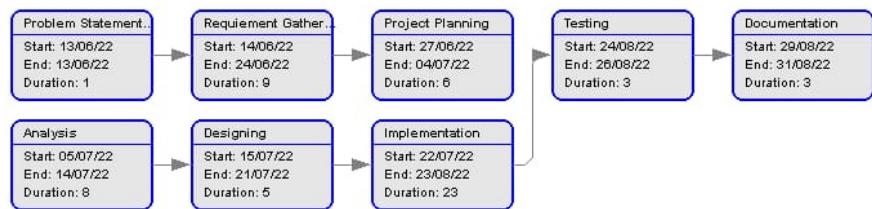

### 3.2 Modules

#### 3.2.1 Activity diagram

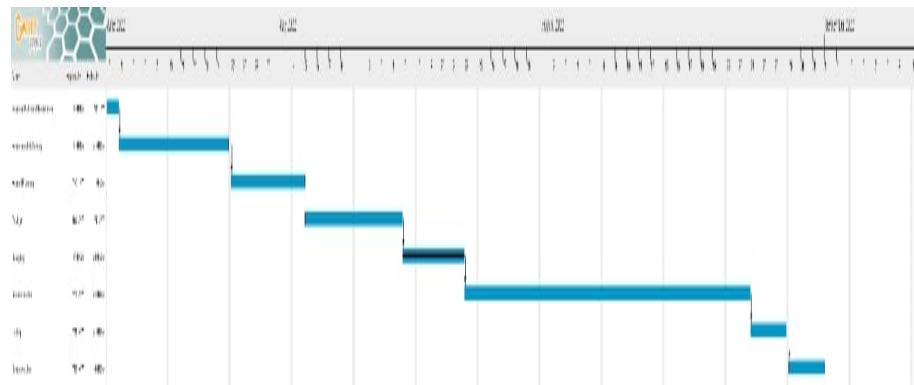

3.2.1: Activity Diagram

### 3.2.2 PERT Chart

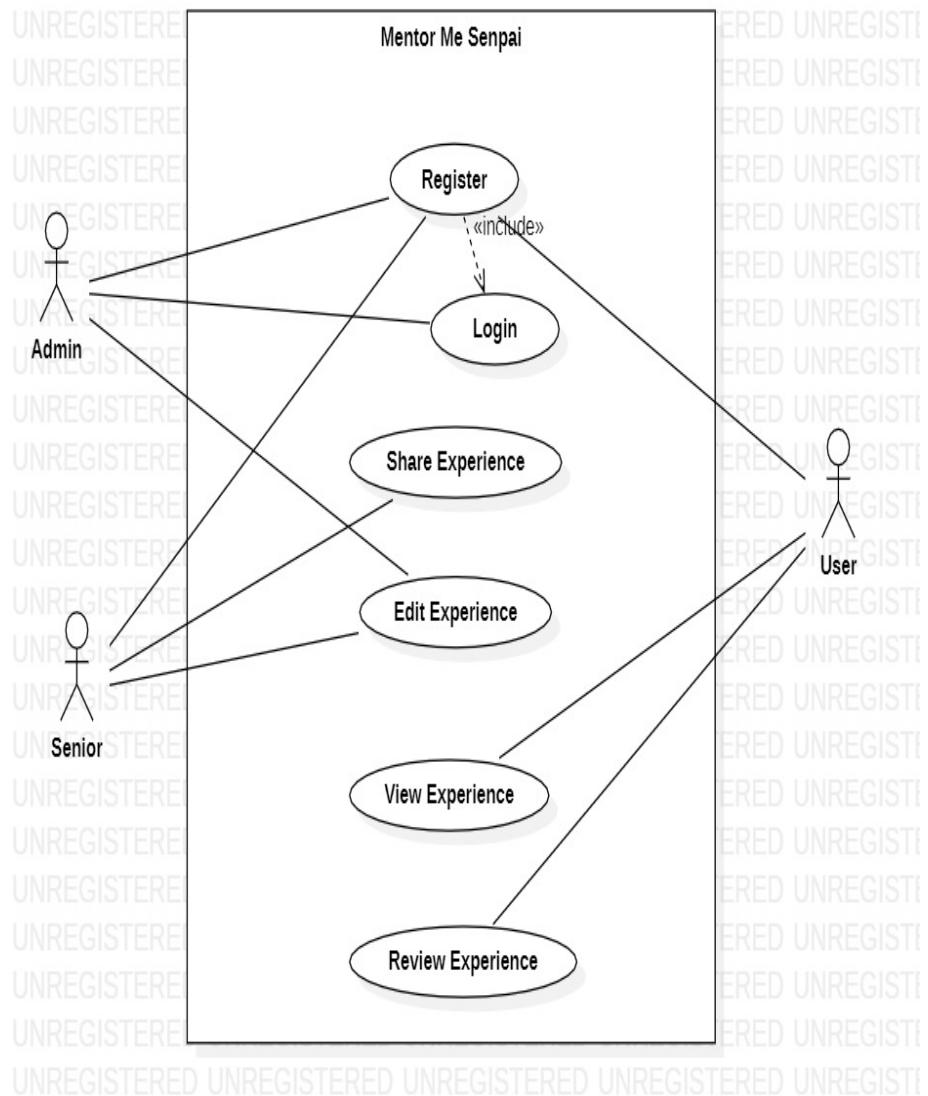

3.2.2: PERT Chart

### 3.2.3 Gantt Chart

3.2.3: Gantt Chart

### 3.2.4 Use-Case

### 3.2.4: Use-Case Diagram

Use Cases:

1. Register
2. Login
3. Share experience
4. Edit experience
5. View Experience
6. Review Experience

Table 4.2.1: Use Case Table - Register

Use Case ID	1
Use Case Name	Register
Actor	Admin Senior and user
Pre-Condition	They must register themselves first
Post-Condition	User can login
Flow of events	Login, Register or Edit experience view experience

Table 4.2.2: Use Case Table - Login

Use Case ID	2
Use Case Name	Login
Actor	Admin Senior User
Pre-Condition	They must register themselves first
Post-Condition	User can view experiences

Table 4.2.3: Use Case Table - Share Experience

Use Case ID	3
Use Case Name	Share Experience
Actor	Senior
Pre-Condition	Login
Post-Condition	User can view or admin can edit the Experience

Table 4.2.4: Use Case Table - Edit Experience

Use Case ID	4
Use Case Name	Edit Experience
Actor	Admin,Senior
Pre-Condition	Login
Post-Condition	User and Admin can view and edit the experience

Table 4.2.5: Use Case Table - View Experience

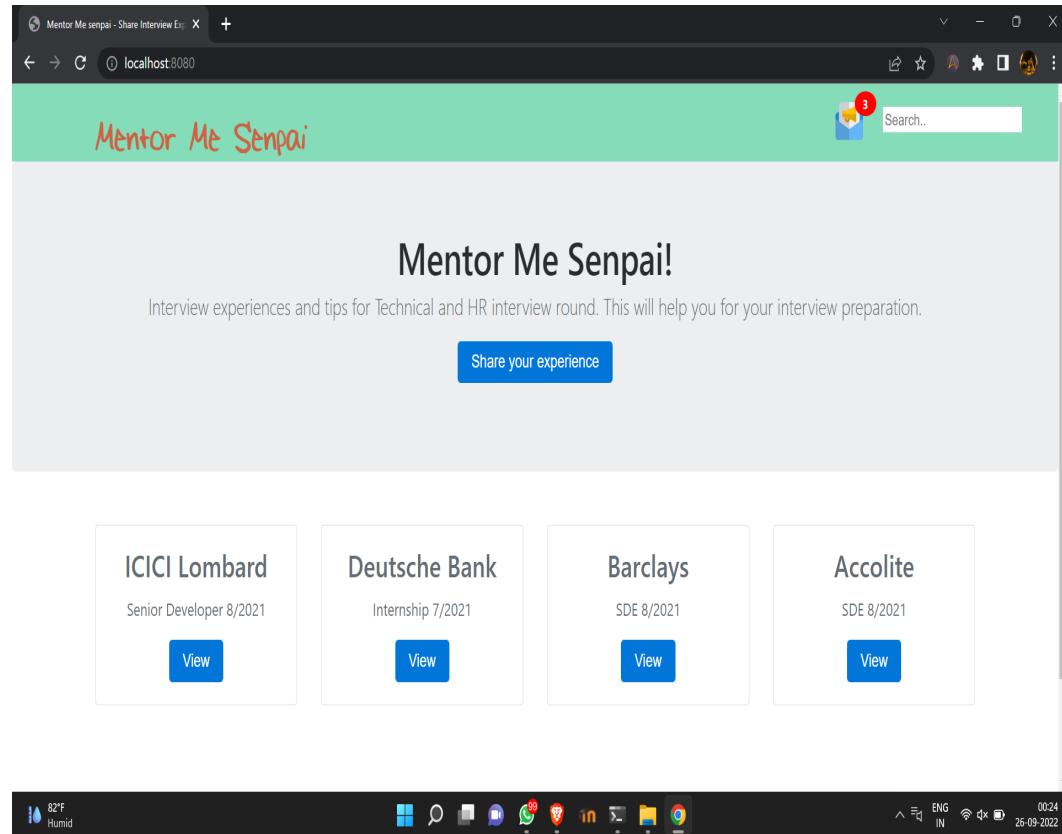

Use Case ID	5
Use Case Name	View Experience
Actor	Senior user admin
Pre-Condition	Login
Post-Condition	Can view experience

Table 4.2.6: Use Case Table - Review Experience

Use Case ID	6
Use Case Name	Review Experience
Actor	User
Pre-Condition	Login
Post-Condition	Can view Experience

## 4 Project Implementation and Testing

### 4.1 Home page

4.1.1: Landing page

## 4.2 Experience form

The screenshot shows a web browser window with the title 'Mentor Me senpai - Share Interview Experience'. The main content area is titled 'Write Review'.

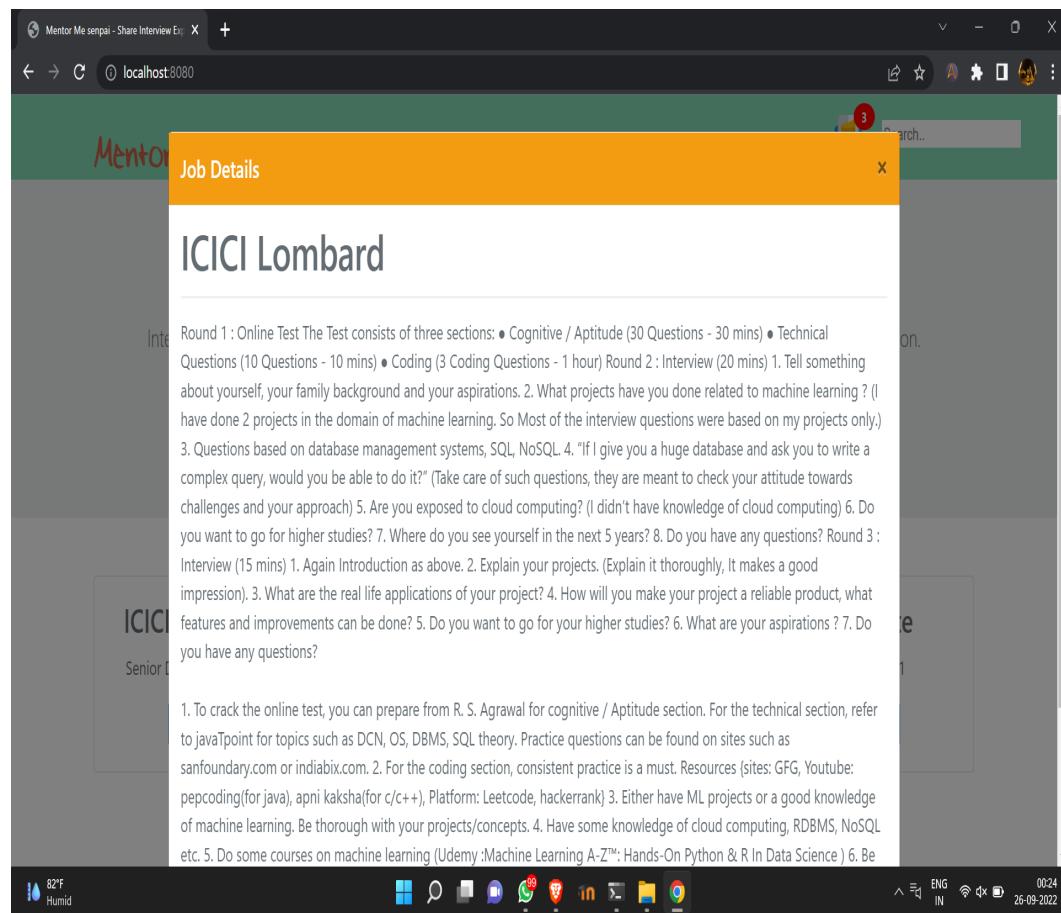

Form fields include:

- Company Name you interviewed for\* (input field: Enter Company Name)
- Job Title/Designation you interviewed for\* (input field: Job Title)
- Work Experience at the time of interview? (dropdown: Years of experience)
- What is the highest qualification at the time of interview? (dropdown: Select)
- Would you like to keep post anonymous? (radio buttons: Yes, No, selected: No)
- When did you appear for the process? (dropdowns: Select Month, 2022)
- How did you get the interview? (dropdown: Select Source)
- Describe the process of interview?\* (text area: e.g.: no. of rounds, shortlisting Criteria, written test, skype/face to face interview, GD experiece etc)
- Question asked in the interview?\* (text area: Qu. Work Experience)
- Add more questions (button)

The browser status bar at the bottom shows: 82°F Humid, ENG IN, 26-09-2022, 00:24.

### 4.13 Code 9

The screenshot shows the Visual Studio Code interface with the file `index.html` open. The code contains a text area for interview descriptions and a form group for questions, including a placeholder for work experience.

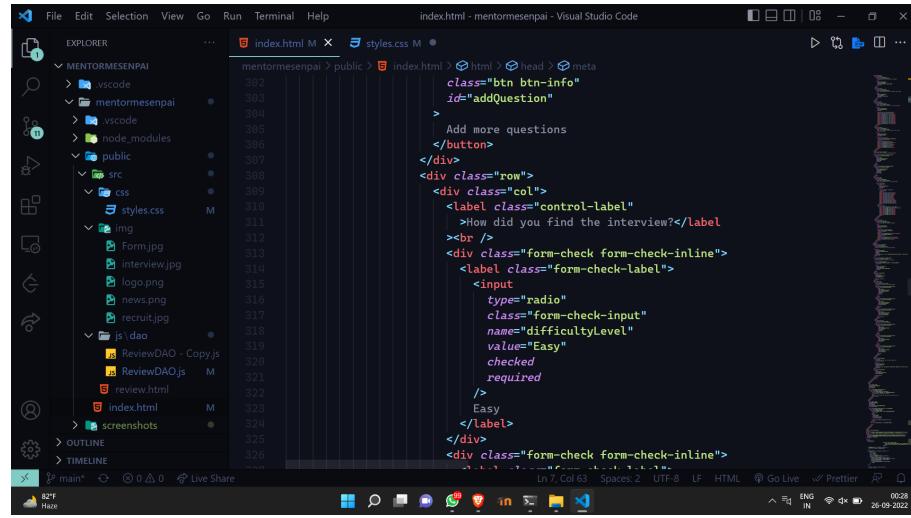

```

<textarea
    class="form-control"
    name="interviewDescription"
    required
    rows="3"
    placeholder="e.g : no. of rounds, shortlisting Criteria, written test, etc.."/>
</textarea>

<div class="form-group" id="questions">
    <label class="control-label">
        Question asked in the interview?</label>
    <br/>
    <div class="input-group">
        <span class="input-group-addon" id="sizing-addon1">
            Qu...
        </span>
        <input
            class="form-control"
            name="questions"
            placeholder="Work Experience"
            required
            type="text"/>
    </div>
</div>

```

### 4.14 Code 10

The screenshot shows the Visual Studio Code interface with the file `index.html` open. The code includes a button for adding more questions and a section for difficulty level with radio buttons for 'Easy' and 'Medium'.

```

<button
    class="btn btn-info"
    id="addQuestion">
    Add more questions
</button>

<div class="row">
    <div class="col">
        <label class="control-label">
            How did you find the interview?</label>
        <br />
        <div class="form-check form-check-inline">

## 4.16 Code 12

The screenshot shows the Visual Studio Code interface with the following details:

- File Explorer:** On the left, it lists the project structure:
  - MENTORMESEPAI
  - vscode (359)
  - mentormesepai (360)
  - vscode (361)
  - node\_modules (362)
  - public (363)
  - src (364)
  - css (365)
  - styles.css (366)
  - img (367)
    - Form.jpg (369)
    - interview.jpg (370)
    - logo.png (371)
    - news.png (372)
    - recruit.jpg (373)
    - recruit1.jpg (374)
  - js (375)
    - dao (376)
      - ReviewDAO - Copy.js (376)
      - ReviewDAO.js (377)
      - review.html (378)
    - index.html (380)
    - screenshots (381)
  - outline (382)
  - Timeline (383)
- Code Editor:** The main area displays the HTML code for `index.html`. The code includes form fields for "Offered" and "Awaiting" status, each with a "Yes" and "No" radio button option.
- Bottom Bar:** Shows tabs for "index.html" and "styles.css", file status (0 changes), and icons for Live Share, Prettier, and other extensions.
- Status Bar:** Shows "Lin 7 Col 63 Spaces: 2 UTF-8 LF HTML ⌘G Go Live ⌘Prettier".

### 4.17 Code 13

The screenshot shows the Visual Studio Code interface with two tabs open: 'index.html' and 'styles.css'. The 'index.html' tab displays the following code:

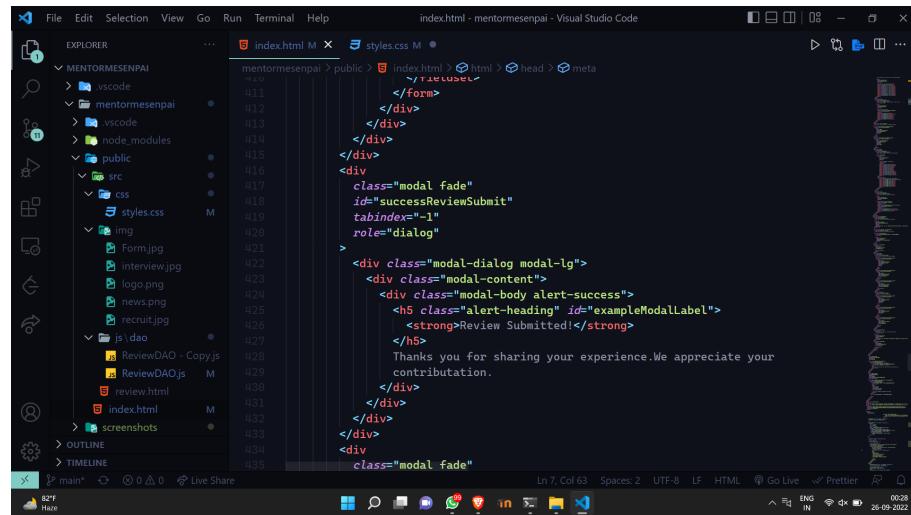

```

<label>Anything else you want to mention about the interview?</label>
<textarea class="form-control" name="moreDetails" rows="3" placeholder="e.g: Any specific Preparation required for similar"></textarea>
<div class="form-group">
  <button type="button" class="btn btn-primary" id="subitReview">Submit Review</button>
</div>
<div class="form-group">
  <button type="button" class="btn btn-primary" id="closeReviewModal">Close</button>
</div>

```

The 'styles.css' tab shows some CSS rules for the modal.

### 4.18 Code 14

The screenshot shows the Visual Studio Code interface with two tabs open: 'index.html' and 'styles.css'. The 'index.html' tab displays the following code:

```

<div class="modal fade" id="successReviewSubmit" tabindex="-1" role="dialog">
  <div class="modal-dialog modal-lg">
    <div class="modal-content">
      <div class="modal-body alert-success">
        <h5 class="alert-heading" id="exampleModalLabel">
          <strong>Review Submitted!</strong>
        </h5>
        Thanks you for sharing your experience. We appreciate your contribution.
      </div>
    </div>
  </div>

```

The 'styles.css' tab shows some CSS rules for the modal.

## 4.19 Code 15

The screenshot shows the Visual Studio Code interface with two tabs open: 'index.html' and 'styles.css'. The 'index.html' tab displays the following code:

```

<div class="modal fade" id="viewDetailModal" tabindex="-1" role="dialog" aria-labelledby="exampleModalLabel" aria-hidden="true">
  <div class="modal-dialog modal-lg" role="document">
    <div class="modal-content">
      <div class="modal-header">
        <h5 class="modal-title" name="exampleModalLabel">Job Details</h5>
      </div>
      <div class="modal-body" id="view-modal-body">
        <button type="button" class="close" data-dismiss="modal" aria-label="Close">
          <span aria-hidden="true">&times;</span>
        </button>
        <p>Review DAO</p>
        <p>Review DAO</p>
        <p>Review DAO</p>
      </div>
    </div>
  </div>

```

The 'styles.css' tab shows some basic CSS rules for the modal.

## 4.20 Code 16

The screenshot shows the Visual Studio Code interface with two tabs open: 'index.html' and 'styles.css'. The 'index.html' tab displays the following code:

```

<div class="modal fade" id="viewDetailModal" tabindex="-1" role="dialog" aria-labelledby="exampleModalLabel" aria-hidden="true">
  <div class="modal-dialog modal-lg" role="document">
    <div class="modal-content">
      <div class="modal-header">
        <h5 class="modal-title" name="exampleModalLabel">Job Details</h5>
      </div>
      <div class="modal-body" id="view-modal-body">
        <button type="button" class="close" data-dismiss="modal" aria-label="Close">
          <span aria-hidden="true">&times;</span>
        </button>
        <p>Review DAO</p>
        <p>Review DAO</p>
        <p>Review DAO</p>
      </div>
    </div>
  </div>

```

The 'styles.css' tab shows some basic CSS rules for the modal.

## 4.21 Code 17

The screenshot shows the Visual Studio Code interface with two tabs open: 'index.html' and 'styles.css'. The 'index.html' tab contains JavaScript code for adding questions and submitting reviews. The 'styles.css' tab contains CSS for input-group styling.

```

<script>
$(function () {
    var question = '';
    $("#addQuestion").on("click", function () {
        $(question).appendTo("#questions");
    });
    $("#submitReview").on("click", function () {
        $.ajax({
            url: "/review",
            type: "POST",
            dataType: "json",
            data: $("#submitReviewForm").serialize(),
            complete: function (result) {
                $("#submit-review-modal").modal("hide");
                document.getElementById("submitReviewForm").reset();
                $("#successReviewSubmit").modal("show");
                setTimeout(function () {
                    $("#successReviewSubmit").modal("hide");
                }, 2000);
            }
        });
    });
}

```

## 4.22 Code 18

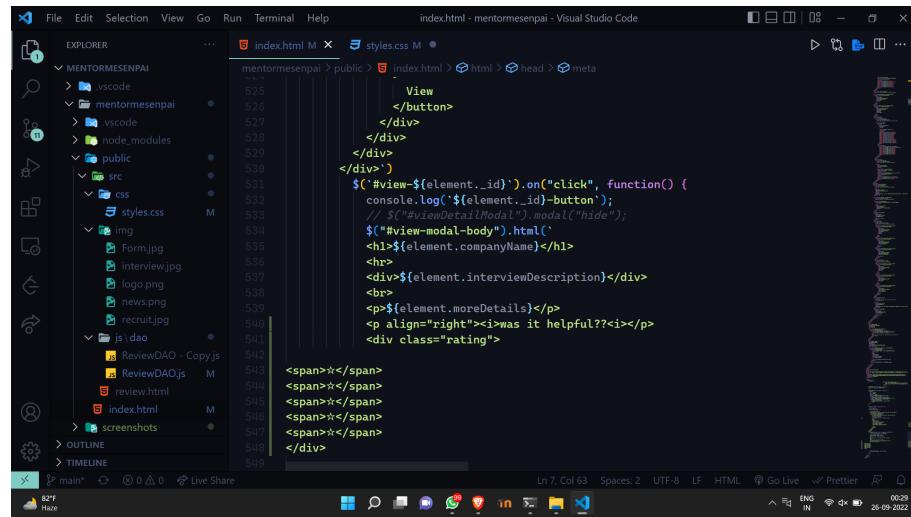

The screenshot shows the Visual Studio Code interface with two tabs open: 'index.html' and 'styles.css'. The 'index.html' tab contains JavaScript code for fetching reviews and displaying them in a card block. The 'styles.css' tab contains CSS for card styling.

```

$.getJSON("/review", function (data) {
    //Data on load
    console.log(data);
    data.forEach(element => {
        // print each post
        console.log(element);
        $("#reviewcard").prepend(<div class="col col-lg-3 my-3">
<div class="card text-center">
    <div class="card-block">
        <h3 class="card-title">${element.companyName}</h3>
        <p class="card-text">
            ${element.jobTitle}
            ${element.month + "/" + element.year}
        </p>
        <button
            type="button"
            id="view-${element._id}"
            class="btn btn-primary"
            data-toggle="modal"
            data-target="#viewDetailModal"
        >
            View
        </button>
    </div>
</div>

```

### 4.23 Code 19

The screenshot shows the Visual Studio Code interface with two tabs open: 'index.html' and 'styles.css'. The 'index.html' tab contains the following code:

```

525     View
526     </button>
527   </div>
528   </div>
529 </div>

### 4.24 Code 20

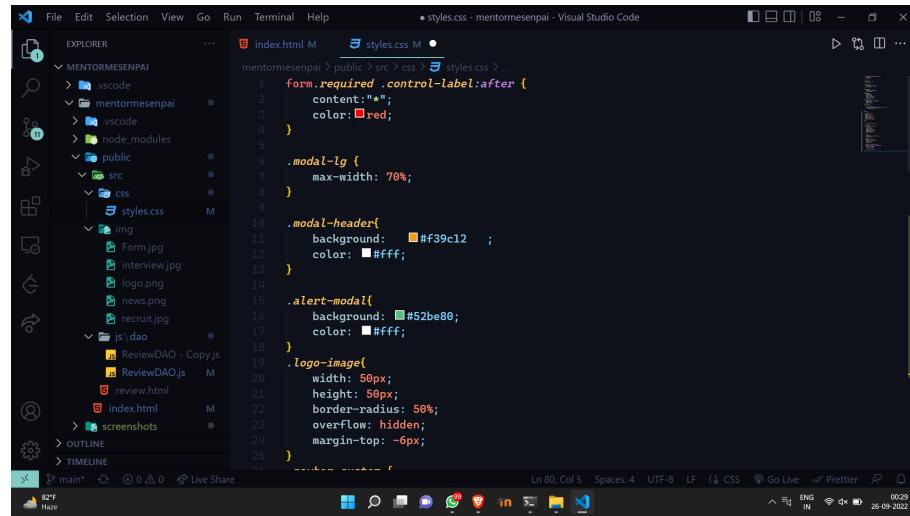

The screenshot shows the Visual Studio Code interface with two tabs open: 'index.html' and 'styles.css'. The 'index.html' tab contains the following code:

```

534     View
535     <h1>${element.companyName}</h1>
536     <hr>
537     <div>${element.interviewDescription}</div>
538     <br>
539     <p>${element.moreDetails}</p>
540     <p align="right"><i>was it helpful??</i></p>
541     <div class="rating">
542       <span></span>
543       <span></span>
544       <span></span>
545       <span></span>
546       <span></span>
547       <span></span>
548     </div>
549
550   );
551   $("#viewDetailModal").modal("show");
552 });
553 );
554 );
555 );
556 </script>
557 </body>
558 </html>

```

#### 4.25 Code 21

The screenshot shows the Visual Studio Code interface with the following details:

- File Explorer:** Shows the project structure for "MENTORMESENPAI" with files like index.html, styles.css, img, js\dao, and screenshots.
- Editor:** Displays the contents of styles.css, specifically the modal-related code below:
 

```

form.required .control-label:after {
  content: "*";
  color: red;
}

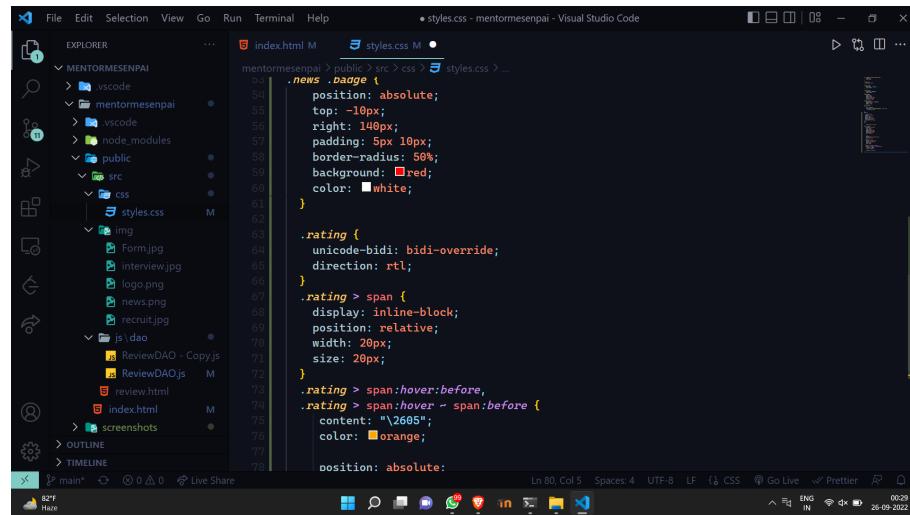

.modal-lg {
  max-width: 70%;
}

.modal-header {
  background: #f39c12;
  color: white;
}

.alert-modal {
  background: #52be80;
  color: white;
}

.logo-image {
  width: 50px;
  height: 50px;
  border-radius: 50%;
  overflow: hidden;
  margin-top: -6px;
}
      
```
- Bottom Status Bar:** Shows file statistics (Ln 80, Col 5), code analysis (Spaces: 4, UTF-8, LF), and developer tools (CSS, Go Live, Prettier).

#### 4.26 Code 22

The screenshot shows the Visual Studio Code interface with the following details:

- File Explorer:** Shows the project structure for "MENTORMESENPAI" with files like index.html, styles.css, img, js\dao, and screenshots.
- Editor:** Displays the contents of styles.css, specifically the news badge and rating-related code below:
 

```

.news-badge {
  position: absolute;
  top: -10px;
  right: 140px;
  padding: 5px 10px;
  border-radius: 50%;
  background: red;
  color: white;
}

.rating {
  unicode-bidi: bidi-override;
  direction: rtl;
}

.rating > span {
  display: inline-block;
  position: relative;
  width: 20px;
  size: 20px;
}

.rating > span:hover:before,
.rating > span:hover ~ span:before {
  content: "\2605";
  color: orange;
}

.rating > span:active {
  background-color: orange;
  color: white;
}
      
```
- Bottom Status Bar:** Shows file statistics (Ln 80, Col 5), code analysis (Spaces: 4, UTF-8, LF), and developer tools (CSS, Go Live, Prettier).

## 5 Test Cases

Table 6.1: Test Case - Login and Register

Test Case ID	Test Case Name	Test Data	Expected Output	Actual Output	Result
1	User enter valid input in forms	Enters the correct details in correct fields	perfect submission	Home Page	Pass
2	User enter his experience	Enters the experience	Prompt error	Prompt error	Pass
3	User enter valid date	Valid date and year is important	successful submission of form	form	Pass
4	successful completion of form	all required fields are filled	Prompt error	Prompt error	Pass

Table 6.2: Test Case - Others

Test Case ID	Test Case Name	Test Data	Expected Output	Actual Output	Result
1	user choose the card to display interview experience	modal opens up to show data	Successful view	Successful view	Pass

## 6 Limitations

- It needs internet to be accessed.
- It does not have a feedback form.
- There is no way of validation.
- users cannot connect directly with the seniors.

## 7 Future Enhancements

- Button to connect with seniors.
- Automatic resume submission in placement drives.
- Push notification on personal mail.
- Providing reference link for preparation.

## 8 User Manual

### **Part 1 – Home Page**

Upon opening the application, user can see various interview experiences on the site. Seniors can post their experience via filling out the form which will collect all the details and display via a card

### **Part 2 – Anonymity**

user can choose to be anonymous while posting the interview experience to maintain his privacy.

### **Part 3 – Access to all experiences**

User can access all the interview experiences

### **Part 4 – Review Experiences**

students can get the latest updates of current and upcoming off-campus drive.

### **Part 5 – Off Campus Updates**

students can get the latest updates of current and upcoming off-campus drive.
